ABOUT MITKO

Based out of Wodzislaw Slaski in Poland, Mitko has been in business since 1989. Since day one of our operations, we have embraced superior customer service, professionalism, and the high quality of our products.

Not only are we a leading producer of outdoor advertising carriers, but we also specialize in the production of advertising tents, umbrellas, flags, and beanbags.

Mitko is one of the few companies which can boast comprehensive customer service at every stage of operation: production, sale, and delivery.

We are also the only company in Poland which produces tents compliant with the requirements of European norm EN-PN 13782:2005, which regulates the safe application of temporary structures.

Mitko operates its own ironworks, and is an independent producer of tent frames and flag posts. This gives us great control over the timeliness and quality of our production.

Our sewing and cutting rooms are specially designed to customize thick polyester fabrics used for the production of tents and umbrellas. In response to growing customer needs, we have begun to manufacture beanbags from eco-leather and PVC.

Our own digital printing shop specializes in sublimation print, and guarantees ontime execution of every order; and our screen printing shop allows professional printing of repetitive elements.

Our products are monitored for quality and compliance at every stage of production. All are covered by producer warranty. Moreover, we provide comprehensive postwarranty service and technical support from our engineers.

PRINTING, QUALITY, COMPREHENSIVENESS

SPECIAL FABRIC SELECTION AND CONTROL

Our fabrics are tested for water and fire resistance in compliance with the DIN 4102B1 norm concerning manufacturing flaws, extensibility, and resistance to UV radiation (acc. to the “wool scale”).

Materials used during the manufacturing process comply with the requirements of OEKOTEX® Standard 100 (for content of harmful substances). Fabrics are tested for SVHC (substances of high concern).

OUR OWN PRODUCTION

Our sewing room specializes in customizing thick polyester fabrics using a spectrum of over 20 fabric colours. We apply only certified tear resistant threads produced by leading European companies.

Our own ironworks ensures independence and production continuity, enabling us to modernize our tent models and introduce new technological solutions.

Every product is covered by the producer’s warranty. We also provide lifetime Postwarranty service and expert support.

OUR OWN DIGITAL AND SCREEN PRINTING SHOP

We specialize in digital sublimation print. The experience we have accumulated in this area over the last 10 years allows us to print over the entire surface of tents,umbrellas, flags, and beanbags.

We use inks of the highest quality, compliant with the requirements of OEKOTEX® Standard 100.

MITKOTENT
CLASSIC

Mitkotent Classic tents are the budget equivalent of the Premium version. Perfect for customers who are looking for more economical solutions. The frames come without plastic connectors, yet are durable, and the range of sizes we offer distinguishes us from our competitors.

Our Classic tents have an aluminum frame with a 30 × 30 mm leg profile. The canopy and walls are made of polyester resistant to water, wear and tear.

Tents can be made in any custom color, and any branding can be printed on them. Moreover, Classic tents are offered in 20 standard colors.

KEY INFORMATION

- 3 year frame warranty
- Scissor frame allows 2 people to fold the tent within 60 seconds
- Light, aluminum frame with 30 × 30 mm leg profile
- All sword-element connectors are made of aluminum, which reinforces the frame
- Canopy and walls are made of polyester resistant to water, wear and tear
- 2 × 2 m to 4 × 4 m sizes available

MITKOTENT
PREMIUM

Premium folding tents are perfect for even the most demanding customers. They are strong, durable, and come in a wide range of sizes. They are also designed to ensure safety and comfort of use during adverse weather conditions.

The premium aluminum frame has a reinforced 40 × 40 mm profile. Tents 3 × 3 m, 3 × 4.5 m, and 3 × 6 m are made to resist wind with a speed of up to 100 km/h. The canopy and walls are made of wear and water resistant polyester fabric.

Tents may be made in any color and any branding can be printed on them. We use the highest quality of print in the manufacturing process. Premium tents are offered in 20 standard colors.

KEY INFORMATION

- 5 year extended frame warranty
- Frames are 40 × 40 mm and made of reinforced aluminum, compliant with the requirements of the PN-EN 13782:2005 norm. Convenient button for simple tent folding
- Sword-element connectors are made of aluminum
- Canopy and walls are made of thicker polyester, resistant to water, wear and tear
- 5 frame colors white, green, blue, black, and 3 × 3 to 3 × 6 m sizes available

JEHLAN
STARSHADES

Jehlan tents are perfect for even the most demanding customers. They combine a modern shape, large advertising space, and great roofed area. Jehlans are ideal for even the biggest outdoor events.

Jehlan tents consist of large steel poles, and a polyester canopy resistant to water, wear and tear. One tent covers up to 270 m^2 of surface area.

Jehlan tents are available in Mini (Ø 10 m) and Base (Ø 12 m) versions. Sublimation printing allows us to print over the entire canopy.

KEY INFORMATION

- 2 year warranty
- Structure consists of steel base, Ø 60 mm mast, and top crown
- Available in 1, 2, 3 or 4 masts version
- Longest element is only 160 cm, which facilitates transportation
- Tent can cover up to 270 m^2 of surface area

- Steel base with crank in PVC bag
- Arms anchors in bag
- Tent base pegs in bag
- Tool for measuring the distance of mast and arms
- Hammer

ADDITIONS

- 200 kg ballasts to be filled with water or sand
- Walls and vestibules
- Halogen lighting

GOBITENT
PAGODAS

Gobitent is a product for customers who value elegance and an unconventional/unique look. Arched entrances and a stylish canopy make this tent an “eyecatcher.”

The Gobitent frame consists of loose elements. A telescopic mast, suspended by steel wire ropes and attached to the crown of the structure, makes this tent stand out. The Scissor arm frame had been eliminated, providing great practical space.

Gobitent is available in 4 sizes. Sublimation printing allows for any design on the canopy and walls. Tent is available in 20 standard colors.

KEY INFORMATION

- 2 year warranty
- Steel connectors
- Crank for quicker fastening
- Canopy and walls made of 200 g/m^2 polyester fabric, resistant to water, wear and tear
- Longest element measures 170 cm for easy transport

GOBITENT

SET INCLUDES

- Aluminum frame with steel connectors in PVC bag
- Canopy in PVC bag
- Set of ropes with anchors
- Set of steel tent pegs

ACCESSORIES

- LED lighting
- Cast iron or sand filled ballast
- Furniture tables and chairs

FLAGS

Advertising flags are the perfect addition to your promotional stand. Due to small transport dimensions for a relatively large advertising space, flags are often chosen as supplementary advertising carriers.

Sublimation printing enables almost 100% color penetration, and highlevel saturation. We offer a wide range of shapes and sizes that will satisfy even the most demanding customers.

A variety of accessories enables the user to select best fastening for flags. Rotatory bases ensure safety during adverse weather conditions.

FLAGS

KEY INFORMATION

- Highquality aluminum,
- Strong 110 g/m^2
- Easy to clean washable in 30°C
- Digitally printed with almost 100% penetration
- Packed into transport cover
- Wide range of shapes and sizes
- Variety of bases polyester fabric

BEANBAGS AND CUBES

Beanbags are extremely comfortable and versatile. High quality reinforced fabric and digital printing over the entire surface make beanbags and cubes an essential advertising tool. Great as a decoration for lounges, waiting rooms, showrooms, and outdoor promotional zones.

Replaceable covers allow you to easily change the branding/artwork, and create a “WOW” effect for your clientele. With a wide range of sizes, shapes and fillers, these advertising carriers can satisfy even the most demanding customers.

BEANBAGS

model	Beanbag S	Beanbag M	Beanbag L	Beanbag XL	Cube 40	Cube 50	Chair "circle"	Chair "square"

approximate weight*	3,2 kg	4 kg	6 kg	8 kg	2,5 kg	2,5 kg	3,8 kg	4 kg

*depends on type of stuffing

KEY INFORMATION

- Made of wear resistant fabrics: ECO leather; 300 g/m^2 polyester fabric; and 300 g/m^2 PVC
- Texture of choice: polystyrene beads; recycled polystyrene beads; foam; and Styrofoam blocks
- Digital printing possible over the entire surface
- Available in several shapes and sizes
- Printing inks compliant with the requirements of OEKO-TEX® Standard 100 (content of harmful substances) and tested for SVHC (substances of very high concern)
- Light and comfortable
- Easy to clean

UMBRELLAS

Umbrellas combine promotional and functional features. They are a widely popular and effective advertising medium. Thanks to aluminum poles, they are easy to transport and assemble.

With a wide range of shapes and sizes, our umbrellas can be arranged in any space, and are ideal for use during business, sporting, or cultural events. They combine both advertising and utility functions, and are perfect for the food and hotel industries.

A steel, cross-shaped base and concrete weights guarantee stability of the umbrella against a wind velocity of up to 30 km/h. Polyester sheathing, which can include any digital printing of your choice, makes umbrellas one of the most popular mobile advertising carriers.

UMBRELLAS

model	San Luis	San Francisco	San Marino	San Remo

transport size	195 x 30 x 30 cm	275 x 30 x 30 cm	280 x 30 x 30 cm	290 x 30 x 30 cm

KEY INFORMATION

- Light, aluminum mast with a profile of 50 or 60 mm
- Wind resistant against up to 30 km/h of wind velocity
- Steel, crossshaped base with concrete weights guarantees stability
- Canopy made of water and wear resistant polyester fabric
- Unlimited digital printing

ROLLUPS

Small size, weight, and easy montage make the rollup the most popular mobile advertising carrier. The rollup banner is mounted to the mast. Rolling down the banner after presentation into the cassette is possible thanks to a spring mounted inside. This ensures the safety of the banner during transportation.

The banner is made of polypropylene impermeable to light, and digital printing allows the user to design it freely. Durable transport bag protects the cassette and the mast.
